Multi-Tiered System of Supports (MTSS) /Response to Instruction/Intervention (RtI)

School-Based MTSS/RtI Team

Identify the school-based MTSS leadership team.

- Jennifer T. Gray (Principal) - Administrator
- Cynthia Bartley (Assistant Principal) - Administrator
- Erin Anthony (ESE Liaison) – ESE Resource
- Jennifer Correa (Kindergarten Teacher) – Classroom/Inclusion Resource
- Kayla Bowes (First Grade Teacher) – Classroom Resource
- Janet Heartsill (Second Grade Teacher) – Classroom/Inclusion Resource
- Linda Gordon (Second Grade Teacher) – Classroom/Inclusion Resource
- Faleeta Acoff (School Psychologist) – District School Psychologist
- Kathy McQueen (Guidance Counselor) – Guidance Counselor

Describe how the school-based MTSS leadership team functions (e.g., meeting processes and roles/functions). How does it work with other school teams to organize/coordinate MTSS efforts?

1. Serve as a resource to faculty and staff regarding the RtI process, best practices, and data disaggregation.
2. Attend all district training opportunities and bring pertinent information back to the school community to better meet the individual needs of our students.
3. Meet on a monthly, consistent basis to review and disaggregate data. Take information gained from these meetings back to the staff and provide assistance in addressing the needs identified through this process.
4. Monitor and assist in the implementation of the three-tiered RtI model within our school community.

Describe the role of the school-based MTSS leadership team in the development and implementation of the school improvement plan (SIP). Describe how the RtI problem-solving process is used in developing and implementing the SIP?

The members of the RtI Leadership Team will continue to work as an integral part of our school community. By meeting on a regular basis and reviewing data, these individuals will discuss trends and apparent gaps. Through professional discussions, these individuals will work to provide assistance to the school community to address trends and any possible gaps in achievement, so that we are continuing to meet the individual needs of our students. This work will be constant, in that as we identify areas of need, we implement strategies and assess the affect through data disaggregation.

The members of the RtI Leadership Team will meet with the School Advisory Council (SAC) and Principal to help monitor implementation of the SIP. The team will provide data on: Tier 1, 2 and 3 targets; academic and social/emotional areas that need to be addressed; will establish clear expectations for instruction (Rigor, Relevance, Relationships); facilitate the development of a systemic approach to teaching (Gradual Release, Essential Questions, Activating Strategies, Teaching Strategies, Extending, Refining and Summarizing); and align processed and procedures.

MTSS Implementation

Describe the data source(s) and the data management system(s) used to summarize data at each tier for reading, mathematics, science, writing, and behavior.

A universal screening system is in place for assessment of all students. There is differentiated support within the Tier 1 program with process monitoring of students within the core program. Tier 2 supplemental interventions are implemented for students performing one grade level below and those not meeting grade level expectations. There is progress monitoring within the supplemental intervention. Tier 3 intensive interventions are provided for students who are two or more grade levels below expectations. There is also progress monitoring within the intensive intervention.

The following assessments are used to determine student needs and monitor progress in addition to Progress Monitoring Assessments (PMA) and teacher checkpoints:
 Baseline Data: Progress Monitoring and Reporting Network (PMRN), Diagnostic Reading Assessment (DRA2), Florida Assessment for Instruction in Reading (FAIR), Math enVisions and Investigations assessments, District Benchmark Assessments.
 Midyear: Florida Assessments for Instruction in Reading (FAIR), Diagnostic Reading Assessment (DRA2), Math Benchmark Assessments
 End of Year: FAIR, DRA2, Math Benchmark Assessments, enVisions/Investigations Summative/End of Year Assessments

Describe the plan to train staff on MTSS.

Professional development will be provided through professional learning communities with small sessions that will occur throughout the year. Two PD sessions entitled, “RtI: Problem Solving Model: Building Consensus Implementing and Sustaining Problem-Solving/RtI” and “RtI: Challenges to Implementation Data-based Decision-making, and Supporting and Evaluating Interventions” will took place last fall. The RtI facilitator will work closely with Administration. The RtI facilitator will train the faculty and staff during early dismissal professional development training. The RtI facilitator will keep the RtI Leadership Team informed of the district implementation process as it unfolds throughout the year.

Describe the plan to support MTSS.

As included within the professional development plan for our team members, the team will continue to be supported through a variety of ways. During monthly meetings, conversations regarding data and trends throughout the school will provide the team members with vital information regarding the needs of our students and our staff. As we continue to train the members on appropriate interventions to provide support for our students throughout the tiers, opportunities to identify areas for continued training and support will be provided. In each instance, discussions will occur regarding where we are in the process and to ensure the learning/the growth has occurred. Through this reflection, additional support may be provided to meet the individual needs.

Literacy Leadership Team (LLT)

School-Based Literacy Leadership Team

<p>Identify the school-based Literacy Leadership Team (LLT).</p> <ul style="list-style-type: none"> • Jennifer Gray (Principal) • Cynthia Bartley (Assistant Principal) • Ashley Hines (Kindergarten Teacher) • Jennifer Correa (Kindergarten Teacher) • Kathryn Burghardt (First Grade Teacher) • Kayla Bowes (First Grade Teacher) • Lindsey Rice (Second Grade Teacher) • Teri Bowen (Second Grade Teacher) • Erin Anthony (ESE Liaison) • Teri Hargett-George (Pre-K/ESE Liaison)
<p>Describe how the school-based LLT functions (e.g., meeting processes and roles/functions).</p> <p>The school-based Literacy Leadership Team (LLT) will meet on a monthly basis to monitor and assess our growth, trends, and any gaps identified through the disaggregation of data. Through on-going communication with our RtI Leadership Team, we will work to identify best practices and provide assistance to our school community to better meet the individual needs of our students. We will work with our staff to ensure successful implementation of our core curriculum and provide assistance, as needed, to guide instruction and curricular decisions. Our focus will be on rigor and providing resources to ensure student achievement.</p>
<p>What will be the major initiatives of the LLT this year?</p> <p>Based upon our FCAT data, our primary goals for the 2012-2013 school year will focus upon addressing the achievement gains of our identified subgroups. Through tailoring instructional strategies within our SIP, we will strive to address achievement gaps, provide rigorous instruction and focus on continued achievement in identified areas. This will be done through continued monitoring and disaggregation of data within all professional learning communities, and professional development opportunities, as determined by needs assessments.</p> <p>In addition, the LLT will work with key staff members to guide the unpacking of the Common Core State Standards. In doing so with a focus on the literacy components, the team will also work with staff to assist in providing additional professional development opportunities to ensure individual needs are being met. District level PLCs will be used to share key best practices (i.e. text complexity, text dependent questions) and members of the LLT will assist in multiplying the learning to ensure these best practices are shared across the campus.</p>

Elementary and Middle Science Goals	Problem-Solving Process to Increase Student Achievement						
Based on the analysis of student achievement data and reference to "Guiding Questions," identify and define areas in need of improvement for the following group:	Anticipated Barrier	Strategy	Person or Position Responsible for Monitoring	Process Used to Determine Effectiveness of Strategy	Evaluation Tool		
1A. FCAT 2.0: Students scoring at Achievement Level 3 in science.	1A.1. Lack of student prior knowledge including vocabulary and scientific process; lack of materials	1A.1. Third and fourth grade teachers will utilize the district learning schedule as a guide for implementing engaging hands-on science exploration using the 5E instruction model. Teachers will also use strategies such as graphic organizers and word banks to increase vocabulary. Primary students at Merrill Road will support these goals.	1A.1. 3 rd and 4 th grade science teachers	1A.1. Teachers will analyze data from common assessments to monitor progress toward benchmark proficiency (70% on common assessments).	1A.1. Assessments aligned with NGSSS, FCAT test specifications and content limits; FCAT and district benchmark results		

Science Goal #1A:	2012 Current Level of Performance:*	2013 Expected Level of Performance:*

School Advisory Council (SAC)

SAC Membership Compliance

The majority of the SAC members are not employed by the school district. The SAC is composed of the principal and an appropriately balanced number of teachers, education support employees, students (for middle and high school only), parents, and other business and community members who are representative of the ethnic, racial, and economic community served by the school. Please verify the statement above by selecting *Yes* or *No* below.

Yes No

If No, describe the measures being taken to comply with SAC requirements.
Describe the activities of the SAC for the upcoming school year.
The School Advisory Council will continue to monitor student growth and progress as we also continue to monitor the implementation of the School Improvement Plan. We understand that as an advisory council, it is our primary responsibility to assist in the continued growth of our students. We must devote extra effort and attention to monitor the disaggregation of our data and monitoring the growth of our subgroups. We, as an advisory council, will also continue to seek out business partners and ways to reach out to our community.

Describe the projected use of SAC funds.	Amount
To support and encourage regular school attendance	\$500.00
To increase technology resources	\$900.00
