Grades 6-12 Only Sec. 1003.413 (2)(b) F.S

For schools with grades 6-12, how does the school ensure that every teacher contributes to the reading improvement of every student?

• The school Literacy Leadership Team is established to grow the use of literacy strategies in all disciplines. The Team is composed of a cross section of the faculty that act as liaisons to help grow department wide literacy strategies in all classrooms
• The school has a Student Literacy Team that assists in the development and implementation of classroom literacy strategies.
• Teacher evaluations include a provision for teaching reading strategies to students. The teacher summative evaluation, in most cases, uses reading data as a portion of teacher performance.

High Schools Only

Note: Required for High School-Sec. 1003.413(2)(g), (2)(j) F.S.

How does the school incorporate applied and integrated courses to help students see the relationships between subjects and relevance to their future?

· Students are provided with an array of course offerings that have applicable skills directly relating to various post-secondary training.
· Applied and integrated courses are found extensively in our schools' Center of Excellence program. Within the Center of Excellence, students are required to take multiple integrated courses each year.
· Teachers use a daily common board configuration to identify learning targets for students and how it is relevant in their daily lives.

How does the school incorporate students' academic and career planning, as well as promote student course selections, so that students' course of study is personally meaningful?

Guidance counselors meet with students in individual, small group and large group settings to provide service for academic and social needs. Academic advisement leading into career choice awareness, exploration and planning occurs each year.
· Students meet with guidance counselors individually each year to identify and request courses for the upcoming school year. Counselors also conduct credit checks each year, with multiple meetings each year as student's progress through high school.
· Students have the ability to take a transitions course into and out of high school where transition skills are developed and career planning

takes place.

Postsecondary Transition

Note: Required for High School- Sec. 1008.37(4), F.S.
Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the High School Feedback Report.

The School Based Leadership Team analyzes the High School Feedback Report each year to determine strengths, weaknesses and problem solve gaps in data. Since the data is lagging by two years, it is sometimes difficult to quickly affect change. Some current and previous strategies used to increase postsecondary readiness include: implementation and increased use of the AVID program; increased participation in advanced coursework; establishment and expansion of Centers of Excellence; increased participation in ACT, CPT, and SAT exams; improved articulation with local colleges and postsecondary institutions; and participation in partnerships with St. Petersburg College.
