Other

The AVID elective class provides the AVID students with academic survival skills – organization, critical thinking, and time management skills- to facilitate academic success and bridge the achievement gap. Furthermore, the content specific writing, inquiry, collaboration, and reading strategies implemented in all classrooms serve as a catalyst for an increase in student achievement school wide; therefore, the strategies the AVID program advocates can be used to reach all students not just students who chose to participate in the AVID program.

2012-2013 School Improvement Plan (SIP)-Form SIP-1

Multi-Tiered System of Supports (MTSS) /Response to Instruction/Intervention (RtI)

School-Based MTSS/RtI Team

Identify the school-based MTSS leadership team.

Every student is covered by RtI services through Tier 1. General education teachers serving a particular student are responsible for implementation of basic interventions for that student. ARtI leadership team consisting of the Assistant Principal, Counselors, Deans, School Psychologist, Speech and Language Therapist, Reading Coach, Math/Science Coach, and RtI Coordinator meet weekly. Support to the General education teachers is provided from the RtI leadership team as needed.

Describe how the school-based MTSS leadership team functions (e.g., meeting processes and roles/functions). How does it work with other school teams to organize/coordinate MTSS efforts?

The RtI leadership team, led by the RtI Coordinator, meet weekly to discuss specific student and school-wide performance effectiveness. These student-centered meetings utilize academic and behavioral data to determine both area's levels of success and need.

Describe the role of the school-based MTSS leadership team in the development and implementation of the school improvement plan (SIP). Describe how the RtI problem-solving process is used in developing and implementing the SIP?

The school's RtI leadership team and instructional staff all have RtI responsibilities. The RtI leadership team is responsible for developing and maintaining strategies and interventions for the school. Both groups provide input to the development of goals and strategies through the school's SAC.

MTSS Implementation

Describe the data source(s) and the data management system(s) used to summarize data at each tier for reading, mathematics, science, writing, and behavior.

Collection and analysis of student RtI data is an ongoing process. Summarized end of year data leads strategies for the next year. Student performance data is gathered throughout the year to evaluate timely student instructional needs. Once needs are identified then strategies are developed for RtI implementation for academic and behavioral issues.

Describe the plan to train staff on MTSS.

RtI overview is provided by the principal to RtI leadership team at the start of the school year.

1. The RtI leadership team will take an inventory of the full range of opportunities available to communicate with teachers about RtI. For example, faculty meetings, grade level meetings, instructional team meetings, department meetings, PLCs, and Staff Development days.
2. Defining the body of information that teachers should learn about RtI. Honing the RtI content to be shared with teachers to include only essential information that will answer their most pressing questions and make clear how they can feasibly integrate RtI into their daily classroom practices.
3. At the start of the school year, creating an RtI professional development plan for the full year. First, dividing the RtI information to be presented into smaller presentations that listeners can easily assimilate. Then, distributing those presentations across the range of available opportunities for teacher contact.

Describe the plan to support MTSS.

Literacy Leadership Team (LLT)

School-Based Literacy Leadership Team

August 2012

Rule 6A-1.099811

Revised April 29, 2011

2012-2013 School Improvement Plan (SIP)-Form SIP-1

Identify the school-based Literacy Leadership Team (LLT).

The Literacy Leadership Team at Discovery Intermediate is comprised of the principal, assistant principal for instruction, literacy coach, media specialist, a dean of students, content area chair persons, as well as other interested teachers.

Describe how the school-based LLT functions (e.g., meeting processes and roles/functions).

The LLT team works closely with the administrative team to monitor student academic progress. In addition to developing professional development trainings for the faculty and staff. We meet twice a month to revisit data and to talk about student academic progress.

What will be the major initiatives of the LLT this year?

Monitoring student achievement data and working with teachers to improve academic instruction. The LLT will also work to develop school-wide reading initiatives that promote disciplinary literacy and a school culture of student readers as leaders. Included but not limited to School-wide Battle of the Books, Family Literacy Night, Book Clubs, Participation in Read Across America Day, Reading Ambassadors who visit local feeder elementary school to read to kindergarten students.

2012-2013 School Improvement Plan (SIP)-Form SIP-1

****Elementary Title I Schools Only: Pre-School Transition***

Describe plans for assisting preschool children in transition from early childhood programs to local elementary school programs as applicable.

****Grades 6-12 Only*** Sec. 1003.413 (2)(b) F.S

For schools with grades 6-12, how does the school ensure that every teacher contributes to the reading improvement of every student?

At Discovery Intermediate every teacher is responsible for teaching reading skills through effective researched based strategies. Through our disciplinary literacy initiative, we have implemented 7 student-owned literacy strategies to include: predicting, summarizing, visualizing, connecting, questioning, clarifying, and evaluating. Each month there is a school-wide focus on a literacy strategy. Teachers are involved in professional development and provided support in the use of the different strategies in the different content and elective areas.

****High Schools Only***

Note: Required for High School-Sec. 1003.413(2)(g), (2)(j) F.S.

How does the school incorporate applied and integrated courses to help students see the relationships between subjects and relevance to their future?

How does the school incorporate students' academic and career planning, as well as promote student course selections, so that students' course of study is personally meaningful?

Postsecondary Transition

Note: Required for High School- Sec. 1008.37(4), F.S.

Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the [High School Feedback Report](#).

Middle School Mathematics	Problem-Solving Process to Increase Student Achievement						
Based on the analysis of student achievement data and reference to "Guiding Questions," identify and define areas in need of improvement for the following group:	Anticipated Barrier	Strategy	Person or Position Responsible for Monitoring	Process Used to Determine Effectiveness of Strategy	Evaluation Tool		
1A.FCAT 2.0: Students scoring at Achievement Level 3 in mathematics.	1A.1. Completion of daily math bellwork and Mini Lessons when a substitute is present	1A.1. Paper copy of daily math bellwork, werpoint and Mini Lessons to be included in emergency lesson plans/sub plans	1A.1. Math teachers; Math/Science Coach	1A.1. Mini assessments administered every two weeks	1A.1. Mini assessment data		
Mathematics Goal #1A: <i>Students achieving proficiency in mathematics will increase 10% over 2012 results.</i>	<u>2012 Current Level of Performance:*</u>	<u>2013 Expected Level of Performance:*</u>					
	21% [220]	31%

		1A.2. ELL and ESE student support	1A.2. Increase student exposure to word problems/higher order questions; scheduling support of ELL paraprofessionals and ESE Support Facilitators	1A.2. Math teachers; RCS; ECS	1A.2. Chapter quizzes and tests; Mini assessments; District assessments	1A.2. Individual teacher data; Mini assessment data; District assessment data	
		1A.3. Teacher participation/ buy-in to increased use of math manipulatives, rotations, and technology while differentiating instruction	1A.3. Provide Professional Development on use of math manipulatives, rotational model, technology, differentiated instruction, research based instructional strategies such as GRIM, Marzano and LFS	1A.3. Math/Science Coach; LRS	1A.3. Professional Development attendance, CWT, log of math manipulatives checked out	1A.3. Mini assessment data; District assessment data	
1B. Florida Alternate Assessment: Students scoring at Levels 4, 5, and 6 in mathematics.	1B.1. Lack of consistent progress monitoring throughout the school year	1B.1. Implementation of FCIM model. Students will self-monitor their progress using individual data charts and data walls. Use of differentiated instruction	1B.1. Classroom Language Math/Science Coach	1B.1. Consistent analysis of student progress showing student growth and teacher using this data to adjust their lesson plans	1B.1. Mini assessments every two weeks
