### School-based MTSS/RtI Team

Identify the school-based MTSS leadership team.

The school based MTSS/RtI Leadership team is comprised of general education personnel that facilitate MTSS/RtI as a related but distinct process from the CARE (Children At-Risk in Education) eligibility determination process. At Sarasota Middle School the MTSS/RtI Leadership Team is composed of:

The Principal: Provides support in instructional resources, strategies and overall data demographics.

Select General Education Teachers: Provides information about classroom instructional strategies, daily monitoring and progress.

Exceptional Student Education (ESE) Liaison: Provides information about current IEP, related strategies and on-going reviews.

School Guidance Counselors: provides information related services, groups and basic strategies.

School Social Worker: serves as family liaison providing information related to social services and topics related.

Describe how the school-based MTSS Leadership Team functions (e.g., meeting processes and roles/functions). How does it work with other school teams to organize/coordinate MTSS efforts?

The MTSS/RtI team meets once a week to engage in the following activities: The team will review summative and formative data to identify school, grade, team, and class level academic needs. Individual student information will be reviewed. Based on the data review, instructional strategies will be identified and a timeline of implementation will be constructed. Student progress will be monitored and individual cases reviewed periodically to determine progress and reassess further instructional interventions.

Describe the role of the school-based MTSS Leadership Team in the development and implementation of the school improvement plan. Describe how the RtI Problem-solving process is used in developing and implementing the SIP?

The school-based MTSS/RTI Leadership Team will employ continuous improvement process to create the SIP as outlined in this document. Input will be

gathered from the grade level teams, the SAC and district teams composed of specialists in the areas of instructional need.

DBLT in collaboration with SBLT will oversee the implementation of the SIP Plan.

#### MTSS Implementation

Describe the data source(s) and the data management system(s) used to summarize data at each tier for reading, mathematics, science, writing, and behavior.

The school uses a variety of reports produced by the district Office of Research, Assessment and Evaluation on the academic achievement of students at all Tiers.

Disaggregated AYP subgroup data by reading, mathematics, science and writing is utilized. Further, the school will participate in the FAIR Reading assessment and utilizes the on line district Learn math and science assessments to summarize data for students at Tier 1, 2, and 3. We are also using the ILS for intensive math and reading.

Describe the plan to train staff on MTSS.

The school administrative team participated in MTSS/RtI Positive Behavioral Support Model training provided by USF in the Spring and Summer of 2009. District, school and instructional leaders will continue to train Sarasota Middle School teachers and to date 100% of teachers have participated.

Describe the plan to support MTSS.

District, school and instructional leaders will continue to train Sarasota Middle School teachers in an on-going process.

## Literacy Leadership Team (LLT)

#### School-Based Literacy Leadership Team

Identify the school-based Literacy Leadership Team (LLT).

SMS LLT is Principal Karen Rose, Assistant Principal Mark Gilliland, Assistant Principal Steven Hazuda, 6th Grade LA Curriculum Leader Deb Houston, 7th Grade LA Curriculum Leader Kyle Blough, Multiage Curriculum LA Leader Beth Rogers, 8th Grade Curriculum Leader Whitney Frost.

Describe how the school-based LLT functions (e.g., meeting processes and roles/functions).

Curriculum is discussed and planned through monthly and weekly meetings. The decisions are then developed

through the grade level curriculum leaders who work on a weekly basis within their PLC groups. These decisions involve scheduling of classes, grade level curriculum, school-wide strategies, test data analyzing, common assessments, and countywide initiatives.

What will be the major initiatives of the LLT this year?

Implement 4 School-wide Strategies: Cornell Notes, Vocabulary Frayer Model, Reciprocal Teaching, and Active vocabulary Word Walls.

Anticipation Guides:

Continue to implement School wide vocabulary through WOW

Continue to train GRR Cohorts (Gradual Release of Responsibility/iEngage)

Align ESE services with ESE certified/Reading teachers

Continue the work of PLCs with common assessments

Gradual release of responsibility model

Excellence in writing

## \*Elementary Title I Schools Only: Pre-School Transition

Describe plans for assisting preschool children in transition from early childhood programs to local elementary school programs as applicable.

## \*Grades 6-12 Only

**Sec. 1003.413(b) F.S.**

For schools with Grades 6-12, describe the plan to ensure that teaching reading strategies is the responsibility of every teacher.

WOW is implemented in every class concentrating on the word part of the week; every content area teacher is responsible to introduce the word part, map out words using that word part, add other forms of the word to the web, and use the word meanings to create sentences. All content areas focus on their content area vocabulary for the WOW words.

Every content area uses the 4 school wide strategies of Cornell Notes, Frayer Model, Reciprocal teaching, and Anticipation Guides. Each content area will present the strategy in the same way so students make it a lifelong learning strategy that they can access whenever it's needed.

The 4 components of the GRR model will be done and implemented in LA, SS, and Science; Focus Lesson, Guided Instruction, Productive Group work, and Independent Learning. PLCs will continue their work in common assessments, lesson design and implementation, data analyzing, and targeting weak areas through a students' strengths.

### \*High Schools Only

Note: Required for High School - Sec. 1003.413(g)(j) F.S.

How does the school incorporate applied and integrated courses to help students see the relationships between subjects and relevance to their future?

How does the school incorporate students' academic and career planning, as well as promote student course selections, so that students' course of study is personally meaningful?

### Postsecondary Transition

Describe strategies for improving student readiness for the public postsecondary level based on annual analysis of the High School Feedback Report

## PART II: EXPECTED IMPROVEMENTS

Reading Goals

\* When using percentages, include the number of students the percentage represents (e.g., 70% (35) ).

Based on the analysis of student achievement data, and reference to "Guiding Questions", identify and define areas in need of improvement for the following group:	
<p><b>1a. FCAT2.0: Students scoring at Achievement Level 3 in reading.</b></p> <p><b>Reading Goal #1a:</b></p>	By the year 2013, there will be a minimum of a four percentage point increase for Level 3 students, when less than 70% are currently demonstrating proficiency (across Levels 3,4,5). There will be a minimum of a two percentage point increase for Level 3 students where 70% or more are currently demonstrating proficiency (across Levels 3,4,5). If 90% or more students are proficient, the school can maintain or demonstrate an increase in the percent proficient. No overall proficiency target will be less than 35% (across Levels 3,4,5) for any subgroup.

\* When using percentages, include the number of students the percentage represents (e.g., 70% (35)).

Based on the analysis of student achievement data, and reference to "Guiding Questions", identify and define areas in need of improvement for the following group:	
<b>1. Students scoring at Achievement Level 3 in Algebra.</b>  <b>Algebra Goal #1:</b>	By the year 2013, there will be a minimum of a four percentage point increase for Level 3 students, when less than 70% are currently demonstrating proficiency (across Levels 3,4,5). There will be a minimum of a two percentage point increase for Level 3 students where 70% or more are currently demonstrating proficiency (across Levels 3,4,5). If 90% or more students are proficient, the school can maintain or demonstrate an increase in the percent proficient. No overall proficiency target will be less than 35% (across Levels 3,4,5) for any subgroup.

## School Advisory Council

### School Advisory Council (SAC) Membership Compliance

The majority of the SAC members are not employed by the school district. The SAC is composed of the principal and an appropriately balanced number of teachers, education support employees, students (for middle and high school only), parents, and other business and community citizens who are representative of the ethnic, racial, and economic community served by the school. Please verify

the statement above by selecting "Yes" or "No" below.

**Yes. Agree with the above statement.**

Projected use of SAC Funds	Amount

**Describe the activities of the School Advisory Council for the upcoming year**

The School Advisory Council (SAC) has an important function for the success of Sarasota Middle School.

Listed below are some of the functions of the SAC:

- Reach out to community to obtain more business partners
- Support Family Events.
- Sponsor drives to increase parent involvement
- Assist the school to both create and analyze school climate surveys for parents and students
